CLD 4.4 - 7	4.4 - 7 x width

Barco CLM HD8 DLP Projector

The CLM HD8 is a compact 8,000 lumen DLP projector with full HD (1,920 x 1,080) resolution.

The combination of DLP technology, sealed optics and high density filter ensures that the CLM HD8 will deliver superb images.

The low noise level, compact size and low weight makes the CLM HD8 an attractive choice.

With the combination of high performance HD-projection in a compact and rugged package, the CLM HD8 redefines mid-application HD projection.
