IMAGE DIMENSION (inner):	<i>921mm x 518mm</i>
SEAM GAP:	<i>3.5mm</i>
CONTRAST RATIO:	<i>10000:1</i>
POWER DRAW:	<i>360W</i>
WEIGHT:	<i>25kg per unit. 8kg per bracket.</i>

Orion 4240 Seamless Plasma Wall

The Orion mPDP Plasma Wall offers a dynamic display solution across a broad spectrum of applications and events.

The technology is ultra slim and compact, saves room and minimizes weight considerably compared to other large displays. As total thickness is just 22cm, the mPDP is the perfect choice for large displays in a confined space.

There are no limits to the configuration possibilities with any vertical or horizontal configuration possible.

With only a 3.5mm gap between each unit, the wall delivers a large clear seamless image to viewers.
