Lighthouse R16 Outdoor LED

Designed as sleek, lightweight panels, the R16 is an ideal LED screen for high-quality small to large sized indoor & outdoor viewing.

The Lighthouse R16 outdoor LED tile boasts stunning images from its perceived 8 mm (actual 16 mm) pixel pitch resolution.

R16 also boasts excellent colour reproduction, uniformity and stability; and exceptional lightness at only 65kg per square metre, allowing larger screens to fly where smaller heavier screens cannot.

The Lighthouse R16 LED has proven ideal for concerts, tours, sports events, exhibitions and business communications.

This product is an outdoor-rated IP65 product.
